

*Model QES1510-025
Direct Drop in LCD Monitor replacement for Allen Bradley 8400MP CRT Monitors
Allen Bradley #958671-02
Toshiba D12CX73*

For the past several years, Dynamic Displays, Inc. has concentrated on designing and producing LCD monitor replacements for obsolete and hard-to-find legacy CRT monitors. Drawing on 20 years experience of manufacturing CRT displays for the OEM market place, DDI has developed and produces LCD display solutions for a wide range of CNC Machine Tools, Factory Automation, Process Controls and other legacy manufacturing systems.

Our rugged, industrial-grade series of 10.4" open frame displays employs a high resolution Active Matrix COLOR LCD with a viewable screen area comparable with any 12" CRT. We also use the latest microprocessor controlled A/D boards, with specific HEX file programming to ensure compatibility with older system video signals. A bright, sharp, crisp image is a by-product of the painstaking effort to correctly match each LCD monitor model to the OEM video signal. So, no matter how old, or complicated, your CRT monitor in your CNC machine might seem to you, we assure you that we have a worry free replacement LCD monitor.

Now, Dynamic Displays, Inc. offers an economical 10.4" LCD monitor replacement for the obsolete Toshiba D12CX73 12" CRT monitor in the Allen Bradley 8400MP Control. LCD monitor model QES1510-025 has a rugged steel chassis and is designed to drop into the mounting holes of the original Toshiba D12CX73 CRT Monitor. This new 10.4" LCD monitor has mating video and power input connections, and with circuitry and firmware engineered specifically for the AB 8400MP, is guaranteed to work in your old control.

Features:

- Designed For Allen Bradley 8400MP Controller
- Allen Bradley Special Timing
- Universal Power Supply with VESA Power Management
- 10.4" TFT-LCD Display
- High Contrast – 500:1 Typical
- High Brightness - 230 cd/m²
- Power Requirements: 100-240VAC 50-60Hz @ 1Amp
- Drop directly into the mounting holes of the a Toshiba D12CX73 CRT monitor
- Mounting: 8-32's Screw (4)
- Construction: Heavy Duty Stainless Steel
- Dimensions: 10.075" (H) x 12.76" (W) Kit Only
